PROFILE SUMMARY

I'm an engineering student in computer science. I'm a curious programmer interested in most fields of tech. I've partaken in several projects, experiences and experiment to broaden my culture.
My main interests in computer science are machine learning, brain computer interface and video-games.

PROFESSIONAL QUALITIES

- Listening
- Diplomacy
- Organisation
- Adaptability

INTERESTS

Sport :
- Archery
- Ice skating

Trips :
- Peru
- Canada
- England

Science :
- Aerospace
- Nuclear physic

PROFESSIONAL EXPERIENCE

Internship at Dovikino :
(from 11/05/20 to 22/06/20)
- Role : Development of video game prototype in unity3d and development of tools for Blender

PROJECTS

Zeloth

Personal project (12/2018 - today)

- Framework for the creation of retro-style text adventure game
- Created in C++
- Contribution :
  - Conception
  - Development

3rd semester of IUT project

Studies group project (09/2019 - 01/2020)

- Replay software for regatta of the YCGC (Yacht Club Grenoble Charavines).
- Languages :
  - JavaScript
  - Pug
  - Sass
- Contribution :
  - Project Management
  - Client side development for the web app
  - Conception

Dmenu dynamic script support

Personal project (09/2019 - 10/2019)

- Patch for dmenu
- Coded in C
- Contribution :
  - Development

PAST EDUCATION

IUT 2: CS Grenoble

DUT CS (2020)

- I learned the basics and the principle of programing
- I learned the fundamentals of computer science

PROFESSIONAL SKILLS

Programming
- C++
- C#
- C
- Python
- TensorFlow

OS gestion
- Linux

Reverse engineering
- x86
- Radare2 (r2)

Professional skills
- Scientific Literacy

Language
- French
- English
